TOP-EC-61 -23

BEDA R. ESPINEDA, MD, FPCS
Director, PCS S.U.R.E. Commission

Dear Dr. Beda,

The Sorsogon Provincial Health Office's Libreng Operasyon, Elective Surgery Group started around 2019. This came about when the Supervising Chief of Hospital, discussed with the Provincial Health Officer about expanding the surgical services to the other local government hospitals in Sorsogon. During that time, only the Sorsogon Provincial Hospital (SPH) is providing surgical services out of the nine (9) Government hospitals in the Province. We created a surgical team from SPH, comprising of Surgeons, Anesthesiologists, Nurses and Support Staff (Social Worker, Clerical Aides etc) that went around the other eight hospitals. The group are essentially 'volunteers' and attended the activities outside their actual hospital tour-of-duties. Since then, the workforce expanded because of the support given by all of the Chief of Hospital from all government hospitals. The surgical team has been continually expanding since it started last 2019.

Basically, the group performs gives surgical services to the hospitals in Sorsogon. The clients are patients who needs surgical intervention for their illness. Minor surgeries for 'lumps and bumps'. Medium and Major uncomplicated surgeries for conditions such as hernia, gall bladder stones, thyroid mass, breast mass and other major surgeries are performed in the level 1 district hospitals. The group rotates in all hospitals giving or providing minor surgeries for the four (4) infirmary hospitals and medium/major surgeries for the other four level 1 district hospitals. The clients served are mostly the under privileged. The poorest of the poor or class C and D patients. Clients who are indigent and financially incapacitated.

Last October 2022, It was fortunate for Sorsogon when the Philippine College of Surgeons recognized these activities. This recognition brought about the grant given by the SPSA – PCS SURE Commission Rural Surgery Outreach Program and deployed a volunteer Surgeon and an Anesthesiologist to one of our district (Level I) hospital. Definitely, this grant will entice more Professionals to be more active in the Libreng Operasyon, Elective Surgery activities. The deployment to Gubat District Hospital started March 2023. Attached herewith is the accomplishment report of the group from January to March 2023.

Thank you very much. 

ROBERTO A. CHACON, JR., MD, MHA, FPCS, FPSGS, FPALES
PGADH/Supervising Chief of Hospital

Noted by:

RENATO B. BOLO Jr., MD, MHA, FPCHA
Acting Provincial Health Officer

HEALTH CARE UPDATE:

Another successful elective surgeries was conducted by the Sorsogon Provincial Hospital Dfbdsmh though the Provincial Health Office last week.

A total of 68 Minor Cases and 17 Major Cases have been performed in different hospitals namely Bulan Medicare Hospital with 18 minor cases; Magallanes Medicare Hospital with 20 minor cases and Gubat District Hospital with 30 minor cases and 17 major cases.

All hospitals adhere to strict safety protocols and follow standard procedures to minimize the risks of complications. This includes conducting pre-operative evaluations to determine a patient's suitability for surgery and ensuring that proper post-operative care is provided to patients during their recovery period.
